Become equipped to leverage cultural differences of all kinds to promote creativity, inclusion and sustainable high-performance with individuals, teams and organizations!

‘The rise of new markets in Asia-Pacific has brought with it new opportunities for economic cooperation across the region. Leaders must widen the breadth of their cultural awareness across unfamiliar markets, employees and customers.’

HCLI, Global Mindset 2.0: Cultural Awareness No Longer Enough

‘One of the particular advantages of cognitive diversity is that it promotes two things that institutions need: creativity and innovation.’

Cass Sunstein, Harvard University Professor

ABOUT THE COF™ ASSESSMENT

Preferred choice for many users

‘We selected Rosinski’s COF as a conceptual framework and primary assessment tool for several reasons (cultural categories transcend typical categorization, team profile can be utilized for future initiatives, cost effectiveness...). Other models were considered, however the COF framework seemed particularly designed for coaches to have coaching conversations that facilitate leveraging cultural differences and creating new possibilities.’

Dr. C Carr, PCC and L Seto, PCC (Canada), International Journal of Evidence Based Coaching and Mentoring

Multidimensional and flexible

With its 17 dimensions (more can be added on a custom basis), the COF allows us to become aware of our inevitable biases (e.g., how we communicate, think, manage time, organize ourselves, deal with power and responsibility), and to go beyond potentially limiting norms, values and beliefs. The COF allows discovery of new options to increase versatility, creativity and effectiveness. Its underlying dynamic and inclusive view of culture, enables us to build unity in diversity by leveraging cultural differences.

Different scope from traditional intercultural assessment tools

While still allowing comparison of individual profile with various national cultures, the COF assessment has a much broader scope. The COF assessment aims at helping individuals grow by learning from cultural differences of various kinds. Culture here consists of all the characteristics we have acquired along the way, by interacting with various groups of people and being part of different cultural groups (family, generation, profession, company, country, religion, etc.). The COF assessment can be viewed as an equivalent, at the cultural level, to a personality assessment such as the MBTI.

The COF assessment is available in Chinese, Dutch, English, French, Portuguese and Spanish.
